

GPS P3 calibration campaigns completed or under way

Last updated 28 March 2013

- September – October 2012

A GPS P3 test calibration trip has been carried out using the BIPM traveling system BP0T. It concerns ORB.

ORB (Belgium): weeks 38-41/2012 Measurements completed. [Results](#) published.

- September 2010 – August 2011

A GPS P3 calibration campaign has been carried out using the BIPM traveling system BP0U. It concerns laboratories contributing to the [TAIPPP](#) experiment.

Visits are (dates are approximate):

NMIA (Australia): weeks 39-41/2010	Measurements completed. Results published.
TCC (Chile): weeks 3-5/2011	Measurements completed. Results published.
NRL (USA): weeks 17-21/2011	Measurements taken. Results could not be concluded.
USNO (USA): weeks 31-32/2011	Measurements taken. Results could not be concluded.
NIST (USA):	Trip stopped due to end of ATA carnet.
NRC (Canada):	
To be continued	

- December 2009 – April 2010

A GPS P3 calibration campaign has been carried out using the BIPM traveling system BP0U. It concerns laboratories participating to the [TAIPPP](#) pilot experiment, with receivers not yet calibrated with the BIPM reference receiver.

Visits are (dates are approximate):

NIM (China): weeks 52-53/2009	Measurements completed. Results published.
NTSC (China): weeks 1-9/2010	Measurements completed. Unsuccessful
SG (Singapore): weeks 11-13/2010	Measurements completed. Results published.
NMIA (Australia):	Trip stopped due to failure of travelling antenna.

- December 2008 – April 2009

A GPS P3 calibration campaign has been completed using the BIPM traveling system BP0C. It concerns laboratories participating to the [TAIPPP](#) pilot experiment, with receivers not yet calibrated with the BIPM reference receiver.

Visits are (dates are approximate):

ROA (Spain): weeks 52/2008-1/2009

VSL (The Netherlands): weeks 2-3/2009

SP (Sweden): weeks 5-6/2009

TP (Czech Republic): weeks 8-9/2009

NIMB (Romania): weeks 11-18/2009

Measurements completed. [Results](#) published.

Measurements completed. Unsuccessful
